Twitter Spark Streaming

1. Create Twitter API tokens at
   https://apps.twitter.com/app
   Its straightforward however you may refer following link for any help:
   https://www.slickremix.com/docs/how-to-get-api-keys-and-tokens-for-twitter/

2. Compile code with sbt and prepare a JAR file

3. Run it using following command
   spark-submit --class twitterstreaming.TwitterStream --packages org.apache.spark:spark-streaming-twitter_2.11:1.6.0 --master local[2] --deploy-mode client twitterstreaming_2.11-0.1.jar <Consumer Key> <Consumer Secret> <Consumer Token> <Consumer Token Secret>
